

Auction

The Official Auctioneer of the IPMS is Lyn Knight Currency Auctions. With over 50 years of experience, Lyn Knight has led the industry in Currency Sales for many years and has assembled several high quality collections as well as numerous other rarities for this year's auction. Lot viewing will be held at the IPMS, as well as by appointment prior to the show at our office in Lenexa, KS. Auctions will be held Thursday, Friday and Saturday evenings, with a collection of coins to be offered in a special auction Sunday afternoon. Knight Live session will be held the following week with thousands more offerings. Don't miss out on this amazing event!

The Saint Louis Collection

The Saint Louis Collection offers a high quality group of US Paper Money highlighting the Eighth Federal Reserve District. This collection contains many Saint Louis rarities including the 1918 \$50 Federal Reserve Bank Note that is a pleasing evenly circulated example. The set of 1914 Red Seals will be a joy to collectors' hearts around the globe and the lovely Educational set is highlighted by a super Fr. 247 Deuce with serial #247, now that is cool! Not to be outdone there is a small red seal Silver Dollar Back that is serial #B10 and uncirculated. There are hundreds of notes in the type note department and there should be something for everyone.

An Illinois NBN Type Set

Painstakingly assembled primarily between 1975 and 2005, this assemblage offers an example of virtually every early type and denomination of paper money issued by the Federal government for National Banks chartered within the state of Illinois from 1863-1935. You will see how the money changed appearance but will understand why it is so desirable by the vignettes and designs beginning with the First Charter period and through scenes starting with the signing of the Declaration of Independence and the Baptism of Pocahontas. The earliest national bank in the state was chartered in Chicago - the First NB of Chicago, charter #8.

Part II of the Crazy L. Ranch Collection

The first part of the Crazy L. Ranch Collection was the hit of the recent PCDA auction and with the jewels I have seen yet to come error collectors will anxiously be awaiting this selection of government mistakes. Check out the two 1917 Legal Tenders with an inverted seal & serial numbers or the unbelievable obstructions and cutting errors. There is something for everyone in all price ranges.

American Type Set of US Copper and Silver Coins

In 1963 when this type set was conceptualized, private ownership of US Gold Coins did not exist and there was no reason to go further than Silver Dollars - so Half Cents and Silver Dollars it was. The journey began with acquiring a 1793 Half Cent in UNC condition from the Don Jensen collection at the princely sum of \$3,000. This coin has been graded MS 61 by NGC and it is a lovely example with traces of red underlying on the reverse. I believe we had some 85 examples certified of various types, not the least of which is the 1796 Half Dollar graded VG 10 or the 1796 Quarter graded AU 58, the 1898 Morgan Dollar graded Proof 68 is amazing. They were all part of the plan - to honor our great nation with an amazing collection of American history. Watch for more information on the Peace Dollar set currently being graded or any of the additional items still to come. This collection will be offered on Sunday with lot viewing during Money 2017 or by appointment at our office in Lenexa, KS.

A Middle East Collection

One area that generates great interest is the Middle East. Lyn Knight Auctions will offer an important selection as part of the Kansas City show this June, including the complete first series of paper money from Kuwait (five denominations with all but the 1 Dinar as consecutive pairs and most values as color trials), key types from Saudi Arabia, and a complete first paper money series from the United Arab Emirates including the highly elusive 1000 Dirhams. The Jerash Collection of Jordan features wonderful type notes along with specimens, proofs, errors, replacements, and much more.

Philippines Collection

Over the years, Lyn Knight Auctions has been fortunate to offer several outstanding Philippines collections, including the landmark Dr. Greg Pineda Collection. This year is no exception; we have some wonderful pieces with several at or near the top of the PMG Population Report. We will feature a selection of key types and difficult replacement notes; the market for Philippines replacements has blossomed despite scarce pieces typically not being found in high grade. Some Philippines vignettes are quite majestic, such as George Washington portrayed on the 10 Pesos and the active volcano Mount Mayon depicted on this illustrated 20 Pesos, the best example on the population report. Enjoy this terrific group!

The Patuxai Collection of Laos

We offer the Patuxai Collection of Laos. Laos is an intriguing country to collect. The first notes, from the 1940s, are quite crude with the lower two denominations, the 10 At and 20 At, much scarcer than the next value, the 50 At (although the 50 At has many elusive varieties, some of which are included in this collection). The following series is an American production and a much higher quality of print; this

is followed by British and then indigenous issues. The Patuxai Collection contains the extremely difficult 50 Kip on 500 Kip overprint, as well as the Pathet Lao 200 Kip counterfeit with Ho Chi Minh at right on back substituted for the temple vignette. The Patuxai Collections contains tough signature varieties, specimens, color trials, and key types.

The Dennis Hengeveld Collection of Katanga

We are pleased to offer the Dennis Hengeveld Collection of Katanga paper money as part of the Kansas City IPMS. One historic piece of fascination is a 10 Francs autographed by Moise Tshombe, whose portrait appears on that entire series. Tshombe led the breakout of Katanga against the Democratic Republic of the Congo, which had just gained independence from the Belgian Congo. Katangan independence lasted from 1960-63. The Hengeveld Collection includes key types graded by PMG, with some ranking at or near the top of that population report, as well as notes we have not offered for many years. The note depicted portrays Tshombe and bears the date that Katanga ceased to exist; it is far better than the only other example on the population report.

The Tello Collection

We are pleased to offer a terrific research collection from Guatemala, the Tello Collection. This collection includes many varieties unreported in the Standard Catalog and will significantly expand the listings in that resource. The collection also contains underrated types, some low serial numbers, and widely unknown better signature combinations. There will be pieces of interest for the beginner as well as the advanced hobbyist.

Other Important Rarities

Our goal has always been to offer a strong selection of bank notes from all over the world. While some pieces fit into collections, others do not. We are pleased to offer the entire animal series from Indonesia. Latin America is well represented for the June auction. Queen Elizabeth II is, by far, the most widely collected topical for world paper money enthusiasts and we have no shortage of Queen Elizabeth II type notes.

It has always been LKCA's goal to offer a wide variety of high quality material, spanning as many areas of collecting as possible. We strive to maintain offerings of a high level of interest to collectors in order to include participants from the furthest reaches of the globe.

We need your collections to make this happen! The consignment deadline for 2017 is April 20. We already have a beautiful group of fresh, exciting material in many fields, so please don't hesitate to add your items to this sale.

We understand that everyone has their special circumstances and our desire is to solve them for you. If now is the time for you to sell your paper money, let Lyn Knight maximize your investment. From America to Zanzibar, we know how to produce the results you deserve.
